Dear Mr. Danneker:

On September 19, 2016, Tim Killeen and I inspected Skye Metal Recovery, Inc. located at 217 Blue Knob Road in Marietta, Ohio. The goal of our inspection was to determine Skye's compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and the rules in Chapter 3745 of the Ohio Administrative Code (OAC), and the terms and conditions of Skye's variance issued on February 26, 2013. Skye Metal Recovery, Inc. was represented during the inspection by Mr. J.E. Kirkpatrick, Facility Manager. Our inspection included a review of Skye's operations and written documentation associated with Facility operations.

We found no violations of Ohio hazardous waste laws and regulations and no instances of non-compliance with Skye's variance terms and conditions during this inspection. Please be advised that this notice of compliance is only associated with those areas of the operations that were inspected or documentation reviewed and does not constitute a waiver of potential violations not discovered.

A copy of the inspection report including checklists that we completed as a result of the inspection will be sent with a separate letter. You can find Ohio's hazardous waste rules and other information on the division's web page at: <http://epa.ohio.gov/dmwm/Home.aspx>.

Should you have any questions, please contact Shannon Cook at (740) 380-5278 or [shannon.cook@epa.ohio.gov](mailto:shannon.cook@epa.ohio.gov).

Sincerely,

A handwritten signature in cursive script that reads "Scott Bergreen".
